EDUCATION

Professional Certificate Programme in Data Science and Artificial Intelligence - 2024
Indian Institute of Management , Kozhikode (IIMK)

Master of Computer Application (MCA) - 2010
Indira Gandhi National Open University (IGNOU)

Bachelor of Computer Science (B.Sc.) – 2002
Sri Krishnadevaraya University (SKU)

CERTIFICATIONS

ITIL Version 3 Foundation Examination EXIN, 2008

Scrum Master Certified (SMC®) SCRUMstudy, 2014

Microsoft Certified: Azure Fundamentals
Exam AZ-900: Azure Fundamentals, 2021

Microsoft Certified: Power Platform Fundamentals
Exam PL-900: Power Platform Fundamentals, 2021

Microsoft Certified: Azure AI Fundamentals
Exam AI-900: Microsoft Azure AI Fundamentals, 2021

Microsoft Certified: Data Analyst Associate
Exam DA-100: Analyzing Data with Microsoft Power BI, 2021

Microsoft Certified: Azure Data Fundamentals
Exam DP-900: Microsoft Azure Data Fundamentals, 2021

CORE COMPETENCIES

	Recruitment & Selection		Leadership
	Training & Development		Team Player
	Coaching & Mentoring		Communication & Empathy

PROFESSIONAL SKILLS

Data Analysis	
Data Modeling	
Data Transformation	
Data Warehousing	
Data Visualization	
Data Science	

PROFILE SUMMARY

- Enterprise **Data & Analytics** professional with **23 years'** experience across data management, BI, advanced analytics, and data science; proven in AI-driven solutions and large-scale enterprise delivery.
- Data management & governance** — enterprise architecture, data modeling, quality frameworks, controls, standards, and lineage for trusted, secure data.
- Business intelligence** — modernizing BI ecosystems, building scalable semantic models, and delivering self-service, enterprise-grade analytics.
- Advanced analytics & AI** — predictive analytics, AI-driven insights, and cloud/Lakehouse architectures to enable forward-looking decisions.
- Business applications** — designing enterprise solutions with Microsoft Power Platform and SharePoint to automate workflows and improve productivity.
- People and delivery** — scaling high-performing teams, personnel management, project delivery, and program leadership; mentoring and capability building.
- Stakeholder and vendor management** — aligning business and technical stakeholders; vendor selection, contracting, and performance oversight to deliver on time and on budget.

TECHNICAL SKILLS

- Data platforms** : Fabric, Databricks, Google Big Query, Snowflake, SQL Server ; Azure Synapse;AWS Redshift; Vertica
- Data integration & engineering** : SSIS, ADF - ETL/ELT design; streaming pipelines; data transformation and orchestration.
- Data modeling & governance technologies** : Erwin, SQLDBM - data catalog and lineage tools; metadata management; data quality frameworks.
- Programming, automation & business applications** : T-SQL; PowerShell; Power Apps; Power Automate; Excel VBA - low-code development and pipeline automation
- BI & visualization platforms** : **Power BI**; Tableau; ThoughtSpot; Looker; SAP BusinessObjects;
- Advanced analytics and AI tooling** : forecasting; anomaly detection; predictive modeling; Python/R

EXPERIENCE

Pidilite Industries Limited

Head of Technical Delivery– Data & Analytics (Center of Excellence) | 2023 - Present

- Established a **centralized BI Center of Excellence**, standardizing tools, data models, governance practices, and delivery frameworks.
- Drove **data quality, consistency, and governance improvements**, ensuring trusted reporting and executive decision-making.
- Led modernization initiatives leveraging **Power BI, SQL and cloud-based analytics**, improving reporting turnaround time and self-service adoption.
- Built and mentored a **high-performing analytics team**, fostering accountability, continuous improvement, and business alignment.

HP Computing & Printing Systems India Pvt. Ltd.

Lead Consultant – Data Warehousing, BI & Analytics (Finance Global Operations) | 2018 - 2023

- Led global BI and analytics initiatives supporting **Finance leadership and CFO organization**, delivering insights for performance management and operational efficiency.
- Owned **end-to-end analytics delivery**, including data modeling, ETL, visualization, and automation across large, complex datasets.
- Championed **advanced analytics and data science POCs**, including **text analytics and NLP**, driving innovation in Finance operations.
- Partnered with global stakeholders across regions (US, EMEA, APAC) to **define KPIs, analytics standards, and governance controls**.
- Mentored and developed cross-functional teams; served as **coach and judge for Intelli-Fest global hackathons**, promoting data-driven innovation.
- Recognized with multiple **CFO & Rock Star awards (2019–2021)** for impact beyond core responsibilities

Manthan Software Services Pvt. Ltd.

Project Manager – BI Engineering & Data Analytics | 2014 -2018

- Led BI engineering teams delivering **analytics products and customer-facing BI solutions** in a SaaS product environment.

GENPACT

Business Analyst, Assistant Manager, Manager | 2010-2014

- Led analytics and data science engagements (Market Mix Modeling, Forecasting, Test & Control).
- Managed global clients, delivery teams, and supported pre-sales, RFIs, and RFPs.
- Increased project revenue by **43%**, earning Bronze & Silver VP Awards.

HCL Technologies

Senior Software Engineer | 2007-2010

- Delivered enterprise BI and application support with strong process, SLA, and knowledge management focus.

Vista Infotech (Underwriters Laboratories)

Software Engineer | 2006-2007

- Collaborated with clients and business analysts to gather requirements, design solutions, and implement and support application and database changes using Excel, Access, SQL Server

Leitz Tooling System India Pvt. Ltd.

Software Consultant | 2003-2006

- Built and supported end-to-end enterprise applications using VB 6.0, SQL Server 2000, and Crystal Reports.

Key Projects/Initiatives/Accomplishments

Modern Enterprise Data Platform – Databricks Lakehouse (₹2.5 Cr Program)

Jan 2026 – Dec 2026

- **Leading** enterprise migration from Azure Synapse to Databricks Lakehouse, delivered via implementation partner
- Establishing governance using Unity Catalog (lineage, access control, discovery)
- Driving platform simplification, performance improvement, and AI readiness
- Targeting decommissioning of AWS Redshift & BO reports and reduction in Power BI capacity cost

Enterprise Business Intelligence Optimization

Jan 2025 – Dec 2025

- **Spearheaded** optimization of ~10 enterprise Power BI semantic models (~3 GB each) used for sales analytics
- Redesigned models with simplified relationships, aggregations, and optimized DAX to improve scalability and maintainability
- Impacted ~200–300 sales teams and reduced capacity throttling during month/quarter/year-end cycles
- Achieved ~75% faster report load & query performance with improved reliability and reporting adoption

BI Platform Modernization – Analysis Services to Microsoft Fabric Migration

Jan 2024 – Dec 2024

- **Orchestrated** migration of 300+ Power BI reports from Analysis Services to Microsoft Fabric
- Modernized the organization's analytics platform improving scalability and performance
- Delivered ~₹1 Crore annual cost savings through platform consolidation
- Recognized with **Pidilite Spirit Award** for driving high-impact analytics transformation

Finance Analytics & Reporting Transformation

Jan 2018 – Aug 2023

- Architected and delivered **50+ global finance analytics solutions** across Cash Flow, Treasury, Profitability, OPEX, and Collections using Power BI and advanced analytics
- Designed interactive dashboards providing historical trends, projections, and variance drivers in a unified finance view
- Implemented automated, touchless reporting improving cash visibility, counterparty exposure tracking, and FX risk monitoring
- Established and managed contract resources while overseeing day-to-day BI operations and delivery governance
- Enabled early warning indicators and risk mitigation insights supporting proactive financial decision-making
- Achieved ~100+ hours/month FTE savings by eliminating manual Excel reporting and improving data accuracy

Analytics Capability Building & Training Program

Jan 2019 – Dec 2019

- Conducted SQL trainings as part of organizational learning initiatives
- Delivered Power BI workshops to teams across New Delhi, Singapore, and Malaysia
- Created facilitator guides and participant learning materials
- Provided post-training support via forums and one-on-one sessions
- Enabled ~100+ business users to transition from Excel-based reporting to Power BI reports

Multi-Tenant BI Reporting Platform Implementation

Sep 2015 – Dec 2017

- Analysed source systems, business rules, and data integration checks; designed dimensional physical model (~5 fact tables, 20 dimensions, ~300 attributes) using ERwin
- Architected multi-tenant reporting solution on Vertica columnar database with ETL pipelines built using Pentaho Data Integrator
- Delivered analytical and interactive reporting using Pentaho Analysis & Interactive Reports
- Led team of 4 BI developers and acted as Scrum Master managing delivery through Jira
- Established scalable reporting foundation improving data consistency and tenant-level analytics availability

Sales Channel Effectiveness

Jun 2015 – Aug 2015 (Onshore – USA)

- Develop and analyze business intelligent reports that identified opportunities for various channels to improve ROI & data integrity.
- Automate , standardize the process of weekly, monthly, and annual reporting with quality checks using **MicroStrategy** , SQLand Excel (Power Pivot, Power Query)

Fulfillment Center Operational Analysis

Oct 2014 – Dec 2014 (Onshore – USA)

Visit Client's Fulfillment Center and understanding day-to-day operations like Pick, Put, Pack units, identifying the gaps, and developing future state roadmap to develop enterprise warehouse and implementing self-service BI. Developed key reports using SQL Server Reporting Services on Employee and Warehouse performances.
